

JTC Campaign Track Record: Cumulative RBP by Match

n=83 settled matches, 921 individually-scored questions as of 2026-07-07. Cumulative total: +3246.04 RBP. Largest drawdown: -58.35 at match #43 (SUI-CAN). MacKay (2025) derives ~100 individually-scored questions for a 1-SD skill/luck separation and ~400 for 95% confidence; this campaign's 921 questions clear both, but this chart's own x-axis unit is the coarser 83-match aggregate, which MacKay's derivation does not directly cover -- read any visual trend here as suggestive, not a statistically confirmed skill signal.
